### **ONP Management GmbH in Offshore Wind Financings**

TALANX Asset Management GmbH, Cologne, was the Bookrunner and Mandated Lead Arranger for the EUR 556m "Godewind 1" Offshore Windfarm which closed in October 2015. The transaction is currently being constructed by DONG Energy as Contractor and was equity financed by DONG Energy and Global Infrastructure Partners.

As part of its investment decision for the transaction, TALANX Asset Management GmbH required an in-depth and competent technical analysis of the project and this was provided by ONP Management GmbH, Hamburg to our satisfaction.

Based on this experience, we have decided to mandate ONP Management as the Lenders Technical Advisor for the future project phases of the Godewind 1 project.

The Talanx Asset Management team looks forward to cooperating with ONP Management on Godewind 1 and other future offshore wind transactions.

Yours faithfully,

Dr. Thomas Mann  
Chief Investment Officer
